STUDENTS

- **Conor Gillepsie:** camera off, student with narcolepsy
- **Chris Michael:** moves around to focus
- **Sophia** is really helpful and excellent (Jay), so are **Matt Szabo + Matt Ketchum**
- **Jeanie** takes all 1-on-1's and can be a bit scattered(Bart)

Student rubberducking and talking to themselves a lot

- **David + Elijah** can get off track, but if you talk to them they get back on track quickly, but will waste time in wrong direction
- **Joe + Angel** need to be encouraged to participate
- **Jessie Morris** can get it but sometimes needs extra explanations to get stuff

- **Micheline** - One student receives classroom content in PDF the night before (Angela Hayes reaches out to Curtis to get the PDF and sends it over manually). She's had some attendance issues, calculated differently as a student that retook a module.
- **Matt Szabo** makes background pictures with students
- On Wednesdays we wear pink

Angie and Emily use the student interaction form every time they speak with students 1-on-1:

- their name, and anything you discussed

Attendance: SEIRs do it to make sure cameras are on, Zoom tokens as usual opened by instructors.

Class recordings were being done on the instructor side. Would be great if SEIRs were trained to do Zoom attendance and recordings. Get recordings uploaded on SIS.

Will have 1-on-1's with Angela.

I will make:

ONBOARDING Manual with logins, processes, resources
